

## TIGP Bioinformatics Ph.D. Program

Taiwan International Graduate Program, in collaboration with National Yang Ming Chiao Tung University, National Tsing Hua University, and National Taiwan University

Contact: Ms. Jhih-Rou Lai, Institute of Statistical Science, 02-2783-5611 ext. 105, [tigpbio@gate.sinica.edu.tw](mailto:tigpbio@gate.sinica.edu.tw)

Bioinformatics is the integration of Information Science, Statistics, and Biology.

Bioinformatics is the integration of three important sciences of the future: Info. Sci., Stat., and Biology.

### Why TIGP Bioinformatics Ph.D. Program?

- All English teaching and research environment
- World-class research
- Inter-disciplinary learning and research

### Research topics

- Bioinformatics and Computational Biology
- Biological knowledge discovery
- Analysis and management of biological big data

Application deadline

● February 1st, 2024  
GMT+8 Time Zone

### Competitive Fellowship

- NT\$40,000 (~US\$1,333) / Month
  - Up to 3 years (merit-based for 2nd & 3rd year)
- AS-TIGP Research Progress Fellowship  
AS-TIGP Presidential Fellowship

### Requirements

- MS in biology, computer science, statistics or related areas
- Official transcripts
- Fluency in English
- Statement of purpose
- Three letters of recommendation
