# Errata on
# "Multiscale and multilevel technique for consistent segmentation of nonstationary time series"

Haeran Cho [*] and Piotr Fryzlewicz [†]

It has been noticed that the bound imposed on a positive constant $c$ was misspecified in the following places.

In Step 2 of the Algorithm in Section 3.2, in Assumption 2 and in Lemma 3 of the supplementary material, the constant $c$ belongs to $(0, \infty)$ instead of $[1/2, 1)$.
